- Do not attempt to push the broken tips into the inner part of the dartboard when the plastic tip is broken and stuck on the holes of the target segments. In this way, the broken tip which is at the inner part of the dartboard will obstruct the target segment from moving smoothly and sensing the signal exactly. Please refer to the descriptions in the Trouble Shooting section of this book. Release the screws on the bottom cover of the board to take up the bottom cover, holding the broken tip with a needle-nose pliers, then push it out from the inner side of the target segment.

3. Any round score not divisible by 5 is not counted, for example if a player gets a total of 47 points, the score is 0 since 47 is not divisible by 5. If any one of the 3 darts miss it is counted as a no score.
4. The round is a "bust" (display: buSt) when a player gets a score higher than the residual score that can not reach a zero score exactly.
